

Thank you for participating in the 2022/2023 Merrimack Valley Quilters Guild Mystery Quilt Project. Welcome to month #3. During month 3 you will create more portions of your blocks.

Enjoy 😊

Half Geese Units

If using pre-cuts for Fabric B:

Make an even number of left and right-facing geese units from each pre-cut (layer cake slice/jelly roll strip/fat quarter) and keep the right and left-half geese units from each pre-cut together.

Combine the following fabric squares to form Left and Right Facing Half Geese Units using the method outlined below:

LAP:

- 36 Fabric B rectangles (2 ½" x 4 ½") and 36 Fabric D squares (2 ½" x 2 ½") to make 36 left facing half geese units (2 ½" x 4 ½").
- 36 Fabric B rectangles (2 ½" x 4 ½") and 36 Fabric D squares (2 ½" x 2 ½") to make 36 right facing half geese units (2 ½" x 4 ½").

QUEEN:

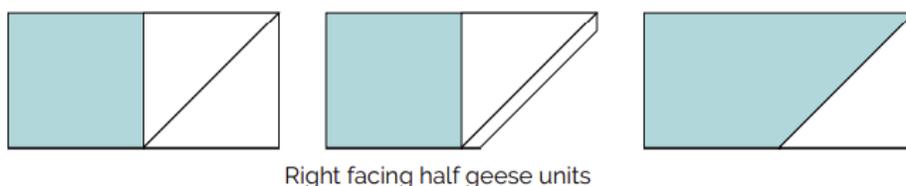

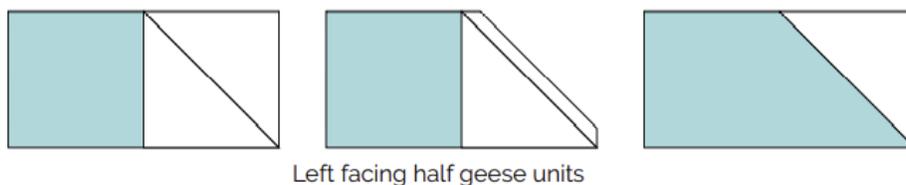

- 36 Fabric B rectangles (3 ½" x 6 ½") and 36 Fabric D squares (3 ½" x 3 ½") to make 36 left-facing half geese units (3 ½" x 6 ½").
- 36 Fabric B rectangles (3 ½" x 6 ½") and 36 Fabric D squares (3 ½" x 3 ½") to make 36 right-facing half geese units (3 ½" x 6 ½").

1. Place a Fabric D square on the short side of a Fabric B rectangle right sides together. Draw a diagonal line using a removable marking device on the back of the Fabric D square (shown as the solid line). The left-facing and right-facing half geese units are mirror images of each other so be sure to double-check the orientation of the marked line.

2. Sew along the marked line.

3. Trim ¼" from the seam line and press open or towards the Fabric D.

4. Repeat to make a total of 36 left-facing half-geese units and 36 right-facing half-geese units.

This pattern was used with permission from the designer and will be reviewed in the last set of instructions.
