

Month 6

Welcome to the final month. If any of you are fans of the Jordan Fabrics weekly YouTube tutorials, you may already be familiar with the pattern we have been working on. The name of the pattern is Ocean Currents by Pine Tree Country Quilts. I was thrilled when Pine Tree Country Quilts granted us permission to use the pattern. They are a “local” company in Stillwater, Maine. They have a great website filled with lovely patterns. I encourage you all to check it out. I am hoping to take a day trip to their store this summer.

Assembling the quilt.

1. Arrange the Twist and Twirl blocks in 8 diagonal rows with A1 triangles as shown in the exploded quilt diagram. **Please note** the blue arrow indicates a block that is flipped in the wrong direction. The orientation should match the rest of the yellow/green blocks in that diagonal row.
2. Stitch blocks and triangles together in each row. Press seams toward the Twist blocks. Join the rows. Press seams to 1 side.
3. Add the A2 triangles to the angled corners to complete the 51 1/2" x 64 1/4" quilt center. Press seams toward the triangles.
4. Sew the 1 1/2" x WOF fabric B strips short ends together to make a long strip. Press seams to 1 side. Cut into 2 strips each 64 1/4" and 53 1/2". Stitch the longer strips to the sides of the quilt center and the shorter strips to the top and bottom. Press seams toward the strips.
5. Repeat step 4 with the 2 1/2" x WOF fabric A strips to complete the top, cutting 2 strips each 66 1/4" and 57 1/2".
6. Sandwich, quilt, and enjoy.

The pattern used is Ocean Currents. The pattern was used with permission of the designer, Pine Tree Country Quilts - <https://pinetreecountryquilts.com/>.
